255					
256 Section 4.2015 Competitive Sealed Proposals					
257					
258 a) Competitive Sealed Proposals may be used whenever permitted by the Code and	ł				

259 as described in this Part. 260 261 b) The Competitive Sealed Proposal method of source selection may be used to 262 procure the following categories. Note that the following services, if they are 263 professional and artistic, must be procured in accordance with Section 4.2035. 264 265 electronic data processing equipment, software and services; 1) 266 267 2) telecommunications equipment, software and services; 268 269 3) consulting services; 270 271 employee benefits and management of those benefits; and 4) 272 273 5) insurance and banking services. 274 275 Competitive Sealed Proposals may be used on a case-by-case basis to procure c) other needs when it is determined in writing by the SPO that competitive sealed 276 bidding is either not practicable or advantageous. 277 278 279 d) The Competitive Sealed Proposal method differs from competitive sealed bidding 280 in two ways: it permits discussions with competing offerors and changes in their 281 proposals, including price and it allows comparative judgmental evaluations to be 282 made when selecting among acceptable proposals for award of the contract. 283 Factors to be considered in determining whether competitive sealed bidding is 284 either not practical or advantageous include: 285 286 1) When evaluation factors involve the relative abilities of offerors to perform, including degrees of experience or expertise, when the types of 287 288 supplies or services may require the use of comparative, judgmental evaluations to evaluate them adequately, or when the type of need to be 289 290 satisfied involves weighing aesthetic values to the extent that price is a 291 secondary consideration; 292 293 2) whether oral or written discussions may need to be conducted with 294 offerors concerning technical and price aspects of their proposals; 295 296 3) whether offerors may need to be afforded the opportunity to revise their 297 proposals, including price; 298 299 4) whether award may need to be based upon a comparative evaluation, as 300 stated in the Request for Proposals, of differing price, quality and 301 contractual factors in order to determine the most advantageous offering to

320		2)	a statem	icht of when and now price should be submitted.
320 321			A) '	The RFP shall identify in the solicitation what parts or features of
322				the work are essential and what options may be included in the
323				project. An option is a right to purchase additional supplies or
323 324				services identified in the solicitation and directly relates to
32 4 325				•
325 326				additional features or services of the underlying supply or service.
320 327				All options must be clearly identified in the solicitation as optional work.

333			1	included in the evaluation.
334			C) 7	The State expects prices for the required and optional supplies and
335 335				services to be the lowest competitive market prices available for a
336				customer of like type and of like circumstance. If the university
337				
338				solicits required and optional supplies or services, but awards based on the required supplies and services, the university may
339				reject any response to the solicitation if the required or optional
340				
340 341			-	prices are materially unbalanced in relation to each other. For example, if a vendor submits an artificially low price for the
342				* ·
342 343				required supplies and services but has submitted an artificially high

345			and may not be in the best interests of the State.
346			
347		D)	Evaluation of options does not obligate the university to exercise
348			those options. If the university adds options not accepted at the
349			time of contract award, a change order shall be executed based on
350			the price provided in the contract. Notice of the exercise of the
351			options shall be published to the Bulletin 14 days in advance of
352			exercise of the options.

- E) Evaluation of the <u>parts</u> <u>first</u> and <u>second</u> part may be conducted simultaneously, provided different evaluators are used to evaluate each part and no information is exchanged between the <u>two sets of</u> evaluators prior to completion of the evaluation. The price proposal shall be opened in the presence of a State witness and distributed to the appropriate evaluators.
- h) Proposal Discussions with Individual Offerors
 - 1) Purposes of Discussions. Discussions are held to:
 - A) promote understanding of the University's requirements and the offerors' proposals (e.g., determine in greater detail milestones, deliverables and timelines for completion of work); and
 - B) facilitate arriving at a contract that will be most advantageous to the State, taking into consideration price and the other evaluation factors set forth in the RFP.
 - 2) Conduct of Discussions. Offerors shall be accorded fair and equal treatment with respect to any opportunity for discussions and clarifications of proposals. Discussion may be conducted by the university, in consultation with the SPO, with vendors reasonably susceptible of being awarded a contract based on qualifications and price. If during the discussions it is determined there is a need for any substantial revision of, or change to, the RFP, the RFP shall be canceled and may be resolicited to incorporate the clarification or change. Auction techniques (revealing one offeror's price to another) and disclosure of any information from competing proposals are prohibited. Any substantial oral clarification of a proposal shall be reduced to writing by the offeror.
 - Best and Final Offers. The SPO may request best and final offers from those offerors deemed acceptable after completion of any discussions. Best and final offers shall be submitted by a specified date and time. The SPO may conduct additional discussions or require another submission of best and final offers. The scope of the best and final offer and the number of vendors allowed to participate shall be defined by the SPO. The primary objective of best and final offers is to maximize the university's ability to obtain best value, based on the requirements and the evaluation factors set forth in the solicitation. If an offeror does not submit either a notice of withdrawal or another best and final offer, the offeror's immediately previous offer will be construed as its best and final offer.

515		
516	i)	Award
517		An award shall be made by the SPO pursuant to a written determination showing
518		the basis on which the award was found to be most advantageous to the State,
519		taking into consideration price and evaluation factors set forth in the RFP. The
520		contract file shall contain the basis on which the award is made. Any changes
521		negotiated after award, other than reduction in price, must be submitted to the
522		SPO for approval prior to contract execution.
